

DIRECTORY FOR NAVAJO SHEEP PROJECT “SHEEP SHEETS”

(as of July 2019)

1. BEHAVIOR:

B-1 Basic Behavior Patterns of Sheep

2. EWES:

E-1 Dystocia

E-2 A,B,C System of Selecting Replacement Ewes

E-3 Increasing Ewe Milk Production

E-4 Ewe and Your Veterinarian

E-5 Culling Ewes

3. GENERAL:

G-1 Dealing with Drought

G-2 Planning for Drought

G-3 Selecting Drought Feeds for Sheep

G-4 Small Ruminant Dietary Grazing Preferences on Summer Range Following Beef Cattle Utilization

G-5 1997 Sheep Inventory Decline

G-6 Brief History of the USDA Southwestern Sheep Breeding Laboratory; Ft. Wingate, NM

G-7 The Return to Dibe' Ni'tsaa' - Sacred Peak of the North to the Navajo

G-8 Sustainable Sheep Production; Part 1

G-9 A Condensed History of Navajo Sheep Production

G-10 Distributing Livestock as a Grazing Management Tool

G-11 Bull Dog Jaw and Parrot Mouth Defects in Sheep

G-12 Options for Marketing Sheep Products

G-13 Starting a Sheep Flock

4. HEALTH:

H-1 Basic Health Information; Horses, Cattle, Sheep and Goats

H-2 Veterinary Biologics

H-3 Behavior Signs of Possible Health Problems

H-4 Lambing Supplies for the Barn; Part 1

H-5 Lamb Pneumonia

H-6 Developing a Flock Health Program; Part 1

H-7 Vaccines and Immunity

H-8 Practical Hoof Care

H-9 Enterotoxemia; the Deadly Tummy Ache; a.k.a. Pulpy Kidney or Overeating Disease

H-10 Sheep Scabies; Scab, Itch

H-11 Contagious Ecthyma; Soremouth

H-12 Pregnancy Toxemia; Ovine Ketosis, Twin Lambs Disease or Ewe Sleepy Sickness

H-13 Entropion Eye; Turned in Eyelid

- H-14 Caseous Lymphadenitis; Cheesy Gland, CLA, Abscesses, or Boils
- H-15 Ovine Progressive Pneumonia, a.k.a. OPP
- H-16 Biosecurity in Sheep Flock; Part 1
- H-17 Watery Mouth Disease
- H-18 Administering Medications

5. LAMBS:

- L-1 The Basics of Saving Newborn Lambs
- L-2 Rearing Orphaned Lambs or Leppy Lambs
- L-3 Using the Pritchard Teats in Feeding Orphan Lambs
- L-4 Lamb Coats
- L-5 When Lambs Fail to Nurse
- L-6 Interpretation of Lambs Temperature
- L-7 Examination of the Sick Newborn Lamb
- L-8 Examination of the Sick Lamb
- L-9 Problems in Newborn Lambs According to Age at Which They May First Be Seen
- L-10 Factors Influencing Lamb Losses
- L-11 Heat Lamps for Young Lambs
- L-12 Fundamental Factors that Affect lambs Survival
- L-13 Colostrum, that Critical First meal

6. NUTRITION:

- N-1 Livestock Water Supplies
- N-2 Feeding the Pregnant Ewe
- N-3 Western Range
- N-4 Reducing Feed Costs
- N-5 Characteristics of Feeds for Sheep
- N-6 Basics of Sheep Nutrition
- N-7 Visual Evaluation of Feeds

7. PREDATORS:

- P-1 Flock Guarding Llamas
- P-2 Sheep Husbandry Methods Can Affect Predationi

8. RAMS:

- R-1 Calendar of Ram Care
- R-2 Ram Semen Evaluation
- R-3 Ram Breeding Soundness Examination (BSE) and Form
- R-4 Ram Epididymitis
- R-5 Use of the Scrotal Circumference Tape
- R-6 Eradicating Ram Epididymitis; *Brucella ovis*

9. WOOL:

- W-1 Wool Grading and Evaluation
 - W-2 Methods of Marketing Grease Wool
 - W-3 Basic Wool Terminology
 - W-4 Wool Faults
 - W-5 Wools Come in Different Sizes
 - W-6 Preparation of Sheep for Shearing
-
